

INVITATION TO TENDER

DISTRICT OF COLDSTREAM GRID ROAD – CONTRACT #1

Sealed Tenders clearly marked “The District of Coldstream – Grid Road – Contract #1” will be received by the Front Desk Clerk, District of Coldstream, prior to 2:00 p.m. local time, Thursday, April 1, 2010, at the District of Coldstream Office, 9901 Kalamalka Road, Coldstream, BC, V1B 1L6 – Attention: Michael Stamhuis, P.Eng., Chief Administrative Officer. Tenders will be publicly opened immediately after the Tender Closing Time, at the District of Coldstream Office, and the public is invited to attend.

The work generally consists of the following approximate quantities:

- 1000 lineal m of asphalt roadway, including concrete curb & gutter and extensive earthworks.
- 850 lineal m of asphalt multi-use pathway, including concrete roadside barrier and street lighting.
- 750 lineal m of PVC storm water main (250mmØ and 300mmØ), including catch basins and manholes.
- 300 lineal m of PVC water main (200mmØ).
- 400 vertical m² of engineered modular block retaining wall.
- 360 lineal m of concrete block fencing.
- 825 lineal m of chain link fencing.

Contract Documents, Contract Drawings and Reference Material for this project will only be distributed electronically in digital format (pdf and dwf formats) through the BC Bid tendering website at www.bcbid.gov.bc.ca. **Information will be available on or after March 17, 2010.** DWF reader software is available for free download from Autodesk at <http://www.autodesk.com/designreview-download>.

A non-mandatory pre-tender site meeting will be held on Thursday, March 25, 2010 at 10:00 a.m. local time at the cul-de-sac at the end of Pointe Sage Drive, Coldstream, BC. Representatives from the District of Coldstream and Urban Systems Ltd. will be present.

This project is supported and funded in part by the Communities Component under the Building Canada Fund and by Western Economic Diversification Canada.
